

FC Mill Liners, Inc.
a FUCASA company

Reliable Supplier
of Custom Mill Liners

www.FCMillLiners.com

WHAT WE PROMISE

OUR CAPABILITIES

YOUR ADVANTAGE

Expert Design

- Fast contour mapping
- Rapid prototyping
- Custom profile geometry

- Fast onboarding
- Guaranteed fit
- Ease of installation/removal

Precision Manufacturing

- State of the art foundry technologies
- Application specific alloys

- Consistent quality
- Predictable wear rates
- Improved changeout prediction

- Specialized metallurgy
- Precision heat treatment

- Longer wear
- Fewer relines
- Greater uptime
- Efficient grinding performance

Reliable Delivery

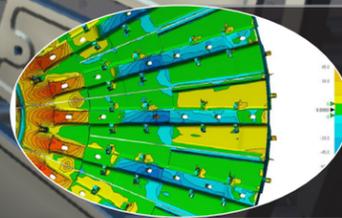

- Consistent lead times
- Fast turnaround
- Scrap recovery option

- Short supply chain
- Reduced liner inventory
- Increased planning flexibility
- Improved cost containment

Continuous Improvement

- Significant industry expertise
- Evidence-based performance improvements

- Improved grinding performance over time
- Increased mill throughput
- Lower cost per milled tonne

Partnership

- Transparent design process
- Clear pricing

- Design ownership
- Predictable costs

ALLOY SPECIFICATIONS

	FC DuraPro™			FC WearPro™	FC ProLiner™		
Grade	FCA-11	FCA-12	FCA-13	FCA-21	FCA-31	FCA-32	FCA-33
Equivalent Standard	ASM Low C	ASM Med C	ASM Hi C	ASTM A597 CH-12	ASTM A532 Class II B	ASTM A532 Class II B	ASTM A532 Class III A
Surface Brinell Hardness (BHN)							
Range	300-370	310-400	330-420	510-550	610 min	610 min	610 min

All liner alloys are produced to international specifications and can be customized to meet specific applications and challenges.

CONTACT US

Take advantage of a no-cost, no-obligation application design analysis - contact your FC Mill Liners Account Manager, visit us at [FCMillLiners.com](https://www.FCMillLiners.com), or contact us at Info@FCMillLiners.com today.
